## Grace's Mission

To weave Grace, Light and Joy into the fabric of the world for the expansion of consciousness and amplify the expression of all that is Divine about being human.

# Mission for Grace G Hom International, LLC

To weave Grace, Light and Joy into the fabric of the world for the expansion of consciousness and to anchor a New Earth where everyone enjoys sovereignty, health and wild aliveness while contributing to the expansion of consciousness on the planet.

## Meet Grace

Grace Geokyin Hom, Light Medicine Woman and Light Language Activator, has over 21 years of combined experience in health care and alternative healing. She incorporates science, spirituality, and intuition to facilitate her clients to transform health, financial and relationship issues. Her gentle presence, profound intuition and powerful activations often awaken the intuitive gifts and light language abilities in others, making her a much sought-after mentor and teacher to lightworkers and way-showers.

Grace is internationally known for her innovative energy work with eyesight, teeth, body pain, meridian imbalances and re-imprinting states of resourcefulness that activates generative energy in the body. She works with one's Light Body to facilitate the body to remember its own natural state of health and wholeness. Her clients often laugh and yawn to release lifetimes of traumas during their sessions. They also feel lighter and more joyous.

While Grace has always been interested in exploring human potential, it was through her own struggles with an autoimmune disorder and depression that she learned to access her own magic with energy alchemy to heal herself. These personal struggles helped Grace to realize that we are here to be wildly alive and shine our light. Her group healing sessions are an opportunity for many to experience being both the healer and the healing. She invites everyone to co-create a New Earth where everyone enjoys sovereignty, health and wild aliveness while contributing to the expansion of consciousness on the planet.

## Light Medicine Woman

Grace is known as a Light Medicine Woman as she has a gentle way of working with one's light body through light alchemy and Light Language.

She is able to feel and sense one's Divine Blueprint which is Light Information in everyone's energy field.

The Light Body is holographic and contains information from one's past, present and future. Past lives, inter-generational traumas and DNA can all be accessed via one's Light Body.

All activations of the Light Body impacts one's physical, emotional, mental and psycho-spiritual well-being. Grace work supports her clients to experience wellness on all levels of their being.

## Light Language Activator

While soaking in an epsom salt bath the day after Christmas of 2019, Grace started speaking Light Language spontaneously. Ever since that day, Grace has been using Light Language in her private sessions and group calls. In her first Light Language course of over one hundred participants,

nearly everyone's light language abilities were activated during the group calls. Many of her students were able to speak multiple Light Languages after the four group calls. Since then, every time that Grace uses Light Language in a group call or speaking engagement, someone else's light language abilities would be activated.

Light Language is in all of us. Our cellular memories have Light Language in them already. It's just dormant until it gets reactivated by someone speaking any kind of Light Language.

Grace's Light Language activations support participants to remember their Galactic, Elemental, Angelic and Earth (Gaia) light languages.

## Weaving Grace

Chariklo, also “Chariclo,” means “spinning Grace,” in Greek. In mythology, she is the wife of Chiron, the wounded healer and daughter of Apollo, the sun god. Chariklo is the largest confirmed centaur and orbits around the sun between Saturn and Uranus. It was discovered on February 15, 1997 by James V. Scotti of the Spacewatch

program. This centaur was found to have two rings orbiting around it.

There is very little on the astrology and mythology of Chariklo. What is known about her is that she holds sacred space for healing.

Channeling messages from Chariklo is a very special energy as she is about spinning Grace in the world. The beauty and sacredness of Chariklo inspires me to create my own tagline: weaving Grace into the fabric of the world. To me it's about honoring the sacred space we all hold for healing and wisdom to arise and transform our lives.

## Energy Dentistry

Grace innovated a unique system for healing teeth, gums and other dental issues such as oral abscesses and repairing the dentinal fluid flow system within each tooth. Her work in Energy Dentistry not only heals dental issues but also the emotional and psycho-spiritual issues underneath all dental and gum issues. She addresses and heals the issues in the meridians, organs, organ systems, endocrine glands and joints of the body as they relate to teeth.

Unique to Grace's work on energy dentistry is her ability to address unhealed traumas and past life issues as

they related to teeth. She has saved many of her clients from toothaches, root canals and other dental issues.

Grace sees one's dental health as a fingerprint of one's overall health. She facilitates her clients to transform unhealthy emotional patterns, healed past-life issues while healing their dental issues.

# Eyesight Insight and Vision

Grace's energetic work on eyesight supports her clients to trust their insights and expand their visions so that they can live their best lives. Grace believes our eyes are not only sense organs but they are also a holographic reflection of all areas of our lives, including our inner lives. Thus, healing eyesight is more than about seeing 20/20. It's also about expanding the vision we have for our lives so that we really can give full expression to our dreams.

What her clients love about working with Grace in one of her eyesight programs is the amount of insights they get to see for themselves. Most people not only start to reclaim hope for improving their eyesight but they also start to see better possibilities for creating a better life by releasing all their emotional pains and all the perceptual distortions that once limited their experience of life.

Grace's work on Eyesight Insight and Vision supports her clients to feel hopeful about improving their eyesight, eliminating health challenges and heal emotional traumas that once created perceptual distortions and limitations in their lives.

# Special Packages and Topics

I like to create packages, courses and online webinars about healing trauma, transforming emotional and physical pain, transforming chronic health challenges such as chronic fatigue, fibromyalgia, diabetes, arthritis, and auto-immune disorders. I also like to work on dental and eyesight issues. My work as a medical intuitive and energy healer addresses physical illnesses and the emotional/psycho-spiritual issues behind the physical problems.

I also like to teach Light Language and energy medicine (meridians and chakras). I play with the holographic model of the Universe and use Light Alchemy to transform issues in the physical and Light Body.

I like to empower others to be their own healer and transform their own pains, limitations and thrive in all areas of their lives.

Some of my most success work are:

- a) Eyesight Insight and Vision
- b) Energy Dentistry the Archetypal Way
- c) Quantum Immunity
- d) Light Language courses
- e) Inner Bagua
- f) 5D Gifts
- g) Spinal Energetics

I also like to do more work on empowering women to own their voices, own their healing gifts and re-write their narrative for success.

I support all telesummits that are here to support humanity to expand consciousness and anchor a new Earth of peace, joy and abundance for all.

I will not participate in any telesummits that are a part of any multi-level marketing company.

## Gum Bleeding Stopped After Just One Session

I had a session with Grace as I've been struggling with chronic gum inflammation and sporadic bleeding. **After just one session, the bleeding stopped!**

Grace was also very generous with her time and made the effort to tune into inflammatory areas in other parts of the body, *their underlying root cause and re-programming the belief systems* that were causing these issues. I'm sure I'll continue to reap the benefits over time of our work together. I feel Grace is an invaluable addition to any holistic dentistry regimen. Thank you, Grace.

## Slept Better and the Tension in my Jaw has Significantly Subsided

"I reached out to Grace because I was grinding my teeth and experienced much tension in my jaw. I needed someone to witness the origin of this pain to create shifts, and I found this during our session - her presence felt warm and

provided deep support as shifts were occurring. I felt seen and supported.

Within an archetypal framework, Grace identified the main issues showing up in my body as an ancestral pattern I was healing around not receiving support. She brought me back through my personal timeline to the point this energy developed in my body, where she released and re-wrote the experience, effectively re-imprinted my current reality with this cellular understanding of what support felt like.

As she worked, I could feel the shifts in my body, and when she activated the nerves in my teeth, I could feel an ache in my molars develop which also subsided during our session. Since then, I have slept better and the tension in my jaw has significantly subsided.

I would highly recommend working with Grace! Not only did she address the issue I came with, but she went much deeper into the backstory of what was causing the issues than I expected in the time we spent together, allowing me to embody changes in ways I'm still bearing witness to. Thank you!"

### Bleeding Gums Stopped Completely After One Session

I was really amazed at the thoroughness of the entire session with Grace. We started with my teeth and then moved to multiple places within my body.

I was really fascinated how Grace was able to correlate teeth 20 & 21 with my stomach and tooth 19 with my large intestines. These have been issues throughout my life. Grace discovered the source was toxins within these two organs from early in life. This is intriguing because of the unusual number of vaccinations that I received starting in my first trimester in utero through my first six months of life. The

teeth that were affected were on my left side indicating a bonding issue with my mother. This is indeed true because my mother didn't believe in holding babies. Grace therefore focused on resolving these issues w/ my mother and removing blockages to receiving love.

Grace also found some puppet strings where my son was still entangled and pulling on my energy. I am very happy to have these released.

At the end angels showed up to put a warm blanket around me. I felt the heat and the warmth of this gift... I was literally basking in the Love. At one point I also felt intense energy behind my heart chakra while energy was being released.

I had been experiencing bleeding in my gums on almost a daily basis while brushing my teeth. After my session with Grace, this has stopped completely. I am so very grateful.

Grace is a profound energy healer. She has done sessions on myself and my husband multiple times with tremendous results. I highly recommend Grace's compassionate and amazing sessions.

- My jaw tightness and TMJ was released
- Grinding of my teeth while I slept was gone and I slept the whole night without awakening
- I woke up pain free

### Saved Tooth for both Father and Daughter

My sister had been having intense tooth pain several months ago and had made an appointment to have the tooth removed. I suggested that she listen to your free Facebook live clearing first where you did a 10-minute process for teeth. She listened to it several times and the pain went away. Several months later the pain returned. She listened to it a few times and the pain has gone again. She is so happy that she hasn't had to have her tooth removed. So amazing!

Also, my Dad has started to have strong pain in a tooth. The dentist was recommending that he remove it. As he is ill from the effects of several rounds of chemo, very weak and unable to eat, we felt that a surgical procedure to remove the tooth would be too much for him at the moment. So, I have been playing your tooth healing for him remotely each day and setting the intention that he receives the energy. He said he sometimes has a little bit of pain but then the rest of the day he has no pain. He has been able to avoid a visit to the dentist so far. So happy that your healing work can support my family in this way,

Also, I play your Immune System Boost mp3 remotely several times a day for my Dad. At the beginning of the first round of chemo – when I wasn't playing your mp3- he was hospitalized with infections. So, after that, I decided to play your mp3 daily to prevent any further hospitalization. He has not had any infections (that we know of!) since I started playing the mp3 and that was about 3 months ago. Thank you Grace.

I wanted to let you know that your healing is so appreciated and helping more people than you know.

“The Healer of Healers”

I have said that as long as I have a penny to my name, I will continue healing sessions with Grace. I call her “The Healer of Healers.” I am 74 years old and have worked with many gifted lightworkers over the last 40 years. Since working with Grace, I have experienced profound and rapid changes in all aspects of my life. Most profound in this recent time has been the healing of thyroid, pancreas, candida and other physical issues. Emotional underpinnings were removed instantaneously. Currently, I also work closely with a licensed holistic chiropractor who checks my nutrition requirements monthly. **I was taking eleven different supplements and after one session with Grace, I no longer needed six of them and the dosage was cut in half for the remaining five!** Most issues with my thyroid have completely cleared. In relation to my pancreas, I no longer have any cravings for sugar or sweets of any kind. *I also experienced an instantaneous clearing of candida from my body along with many insights about the origin of this condition. On the same day following the session with Grace, I had an appointment with my chiropractor who tested for candida and found no indications of candida remaining in my body.* I am so grateful to Grace for her miraculous work. She is such a gentle, loving, and compassionate healer.

### Abscess Gone and Jaw Back to Normal

I always take great pleasure listening to Grace's calls and mp3s. She brings me peace and joy and calm on days when it seems impossible. She's a life changer.

I have been advised by doctors to remove my gallbladder in the past but hadn't gone through with it. As soon as Grace started clearing the issues that caused me to create stones, I could instantly feel them shifting inside me like cogs on a wheel. She worked on clearing everything that caused me to feel like I am "stuck between a rock and a hard place." That is how I felt for years! The energy was powerful, and I could instantly feel the shift.

She cleared all the issues that run in my family so that I will not be prone to manifest them in myself. Amazing! She was so spot-on, generous, and thorough.

I have had dental issues and an abscess on my gums for many years and it has caused me to be self-conscious and shy. The abscess created a swelling so big, it changed the shape of my jaw and changed my appearance. I also have a blood blister on the back of my lip that feels like a stone. She worked on those too.

I've been extremely busy since our session but not overwhelmed the way I normally am when life is hectic. I was getting ready to go to bed tonight and I realized **my abscess is gone and my jaw is back to normal!** The blood blister is so much smaller and softer and I'm sure it will disappear soon enough! Yay!!

My absolute favorite part of my session was when Grace was clearing my and my family's health issues and their sources her astigmatism disappeared, and she said her vision was clearer than it had been in years. I was very

excited about that. As much healing as she gave to me it was so nice to hear her receive some too!

I absolutely love her spirit, her personality and kind generous heart, I could go on and on and on.

Grace, thanks for all you've done for me and my family.

With gratitude,

Kai Breen

### Abscess Gone and Surgery Cancelled

I seek Grace's energy healing for my daughter who is dealing with leukemia. On Friday, the doctors told us that our daughter needed surgery to remove her oral abscess. Since she is dealing with leukemia, any kind of surgery would be risky, so we called Grace for help.

On Monday, I was expecting to see my daughter coming out of surgery. Instead she was playing in her hospital room.

I asked her, what happened?

The doctors couldn't find the abscess, so they cancelled the surgery!

I am still astounded by the results of Grace's work. She has supported our daughter through her journey with leukemia and we are grateful to her for her compassion, skill and powerful energy healing work.

### Deep and Profound Release

During my private session with Grace we focused on an infection in my back molar. I yawned so much my jaw trembled. The release was deep and profound. Knowing that this tooth is related to deep rooted issues from the past I surely released very old frustrations and anger!

Grace's energy healing work is incredibly powerful. She is truly a gifted energy alchemist.

### A Litany of Health Challenges Improved in 24 Hours

Grace,

I truly loved my healing session with you. It's amazing to me how much can be worked on in such a short amount of time. Less than 24 hrs after my session I could feel real results.

I came to Grace with a litany of problems: chronic fatigue, skin and fungal issues, tightness in my chest, severe digestive issues due to incredible amounts of stress over that past four years and more.

I had lost both of my brothers at a young age to heart attacks, and had taken on the burden of my family and more.

One of the first things Grace worked on was the miasms related to heart issues. The tightness around my chest immediately disappeared and the cough I had loosened up, and as of today has disappeared. I'm breathing more freely now. I only had about 5 hrs of sleep overnight, worked a 10 hr. day, and I still have more energy left at the end of my day

then after a full night's sleep. I feel there is more of a flow of energy coursing through my body.

Most of my issues were related back to 23 generations of abusive patterns that needed to be cleared. How can you quantify having that cleared? It's priceless to be free of burdens and ties that were never mine to begin with.

Grace, I am deeply touched by your generous loving spirit, your insights are so spot on, you tune into every problem within my physical body without my help. What I'm most impressed about is your Authenticity. That word is used a lot these days, but most people could take a lesson from you, because YOU ARE IT.

Much Love and Gratitude.

Healing prostate condition and improvements in a number of areas

I felt relaxed, calm, loved, seen, and cared for during the session. Grace worked on my teeth and gums, which had been troubling me for many years. She scanned my entire body, energizing and helping to improve a number of areas I needed help with, including my prostate, the Ph balance of my digestive system, my anti-inflammatory response, as well as a few other areas.

I have been sleeping consistently through the night since our session 2 weeks ago instead of having to get up to urinate 2 or 3 times. Wow! Amazing work!

Broken ankle able to bear weight after a few minutes of  
energy healing

I recently worked with Grace briefly on a tele summit and I asked to work on my broken left ankle. I had broken it two weeks ago but over the years I'd sprained this ankle a lot. Grace worked on my energy and helped me to release some emotional and physical trauma from the ankle, some deep-seated stuff and patterns that went way back to my childhood. I could feel the emotions rising within my body as she worked on me and after the call my heart was literally smiling.

In the past couple of days I've been able to put some weight on the left foot which is amazing. I was so excited by Grace's work I jumped on her 21 day miracles package and I'm super excited to see what this will bring. If Grace can do this in a few minutes work I look forward to seeing what we can do together if we work together longer. Grace is a gifted, talented and gentle healer and I'm excited to see what unfolds.

Feeling 50 lbs lighter after a 20 min session with Grace

I was really grateful to get a 20 min session with Grace and she has to be the best healer I have ever come across. I don't know what she did, but it was definitely magic!

I came off the call feeling 50 lbs. lighter.

I am telling everyone I know about her. Her work is absolutely fantastic. Highly and strongly recommend her!!

Overcome depression, resolved hypertension and other stress-related ailments

My experience with Grace Hom has been very transforming. As a Professional Engineer my inherent skepticism and analytical nature set a certain level of expectation for me. I can tell you that Grace has impressed me in every way. I find Grace to be extremely knowledgeable about energy medicine and healing. My experience has helped me to open my heart and through the process see healing occur in my family on many levels.

On a personal level, Grace has helped me overcome depression, resolved hypertension and other stress-related ailments. (all verified by MD). In addition to healing health issues, Grace's skill with energy has helped not only my business to grow rapidly but has helped me nurture all my personal relationships. I am sure that Grace has the knowledge and skills to help anyone achieve their personal goals and a whole lot more as everything is energy.

Be Able to Say Good-bye to Crohn's Forever!

A friend of mine who had much success with Grace's work told me to see her. I was hesitant because I've tried so many healers over the last decade of dealing with Crohn's Disease.

During my first session Grace was able to hear the screams and see me hiding in the bathroom as a three-year-old. That amazed

me because that was exactly my childhood situation. What happened next amazed me until this day. Grace released the cellular memories of trauma and I was yawning so much. Then she guided me on a journey back to my childhood and re-imprinted the experiences of being received with love, respect and kindness. This re-imprinting helped my body to have new reference points for receiving love and kindness. That was an incredible experience and my body was feeling the energy for days.

In my second session, Grace did so much energy healing for my digestive system that I was really feeling almost normal. The abdominal pain was gone! For the first time in a long time, I feel hope and I can see that it is entirely possible to say good-bye to Crohn's forever after only two sessions with Grace.

Wow! Grace is a gifted healer and I recommend her to anyone and everyone who needs a kind and gentle person on their side. She makes a chronic issue feel like a simple task to transform and she makes you laugh so much while transforming such deep issues.

#### Seeing the Deeper Meaning in Tooth Infection

I received a Energy Dentistry session from Grace and it came at a perfect time - right as I was experiencing some a tooth infection! I felt a lot of energy shift during the session and everything that she brought up resonated with me. She did a lot of Meridian work and connected it to deeper meanings, which was really enlightening and helpful for me to see what the tooth issue was truly representing. I felt very calm and peaceful after the session and am looking forward to, and expecting, healthy results at my next visit to the dentist!!

Inspired to Show Up in A Whole New Way After One  
Session

When I initially asked Grace for help in healing some dental issues little did I know that I would receive a profound healing on so many levels of my being! According to Chinese medicine every tooth is connected to a different meridian pathway so you can accurately diagnosis the health and energy of every organ and system in the body.

However, Grace went WAY beyond the traditional diagnostics and intuitively read how those blockages came into being on a deep emotional and spiritual level.

I was amazed at how accurately she read my body and energy field, sharing things she could not have possibly known about me beforehand!

***Then she swiftly and systematically cleared what was at the root of my issues*** and afterwards I felt lighter than air,

so energized and inspired to show up in a whole new way in my work and my life.

I highly, highly recommend working with Grace. She is a truly gifted healer and a lovely soul through and through. You will feel deeply healed and nourished by her loving presence and generous heart. So grateful for you Grace!

Tailbone Pain Lessen and Energy Level Improved

Wow, wow, wow! Just had an amazing session with Grace Hom and was blown away by her accuracy and ability to quickly focus in on issues going on in my body and life that I had not told her about!!

Grace ***has a unique and gifted ability to intuitively connect the state of your teeth to the health of the rest***

***of your body and the underlying subconscious beliefs, blocks and traumas from this life and past lives that are part of the cause of disharmony.*** She was spot on and was even guided to work on my tailbone, which I had not mentioned, yet has been very painful for me the last few months! **My tailbone pain has lessened and my energy has improved!**

It was such a joy to connect with Grace and her healing energy, laughter, wisdom and guidance! I highly recommend Grace's healing and am so grateful to have found her. Thank you Grace, I feel truly blessed by the healing you provided for me!!

Maya N., MBA, Medical Intuitive, Holistic Health Coach,  
Energy Healer, Animal Intuitive

Grace, I love your attentiveness to the energy that is going on during a session. I could tell that you were not just going through a learned format, and reciting words that you were taught. You were connected to my energy and read what was holding me back - primary my unwillingness to receive in life being related to having been conceived out of wedlock, my birth not being planned so there was hesitancy to receive me into the world.

Your interaction with my 5-yr old great-granddaughter was incredible. Her horrific experience with a dentist led to a hospital visit and having to be sedated to even have her teeth x-rayed and cleaned. She's also had tummy issues since very young. During the session, she felt the energy, and she responded as you were working with her. I'm anxious to see what happens with her next visit to a dentist - that she will be unafraid and begin having healthier teeth.

Thanks so much for a wonderful experience from both of us!

### Look Forward to “Biting into Life” with Gusto!

I had a session with Grace to explore the energetic underpinnings of two issues with my teeth.(Chipped teeth and enamel erosion.)

Grace tuned right in to trapped emotion and beliefs from my childhood and working career. She was spot on, and quickly released the underlying energy. I shared the insights I had previously about my chipped tooth (“fear of biting into life”) and recent awareness about how “keeping a low profile” in previous lives as a healer had helped me stay alive. I had heard the phrase “flying below the radar.” Grace asked about my relationship with my father. After sharing that my father had been gay, divorced my Mother and “came out of

the closet” in his late fifties, Grace helped me see that the “low profile” energies were also from my Dad’s experience.

Grace then guided me through a deeper energetic clearing, ending with a process to call in more expanded and joyful states of being. I am very grateful to the opportunity to work with Grace! I look forward to now “biting into life” with greater gusto! I highly recommend Grace to support you on your journey!

### 24 Hours Later Gums Still Tingling from Gum Regeneration Process

Grace is such a playful spirit and exudes joy even through the phone. Within the first 30 minutes of our session, I was feeling shifts within my energy.

As Grace started the gum regeneration process, I can feel my gums tingling.

**By the time we finished our call, not only were my gums still tingling, but I also received renewed clarity on my life's calling.**

It's 24 hours since my session with Grace and my gums are still tingling!

I highly recommend this delightful woman for anyone with the desire to work with a medical intuitive.

### **I'm healed from pain and flu**

I was sick with the flu/cold. My body was in very much pain. The connective tissue & bones were very sore. I even had a hard time moving, sitting & laying down.

After the session with Grace, **I'm healed from pain and flu. These 2 new organs – the interstitium and mesentery, Grace worked on are now healed. I feel freed from my past traumas. I'll feel so much better.**

I thought I might have to go to the doctor. But after the session I am healed. Awesome.

### **Cough Disappeared!**

In this session I was *seeking healing for a bad cough and aches in my body from the coughing*. I had stayed home for 3 days as it was uncomfortable to go out with other people's fears of the coronavirus. During the session I could feel a release of energy and often shivered and felt cold.

**My cough disappeared! The next day I could go out again and return to my life.** The past few days I have coughed a little, more like clearing my throat but the deep rasping cough has not returned. This was more than I could ever have expected.

I just love Grace's healing sessions and have participated in many. She is very generous with her free sessions too and gives so much of herself. I enjoy laughing along with her.

### **Reduction in Pain and Hot Flashes and Improved Movement**

I was diagnosed with fibromyalgia about 25 years ago. There's a base amount of daily pain and limitation, and there

are flare ups (5-8) that are substantially worse. During the session I felt a lot of sensations of chills, yawning, pressure in my chest and back, and warmth/relaxation. **By the end of the session there was a reduction in both pain and restriction of movement (2-3), and that has remained the case since the session! *Most improved is my ability to turn and move my neck from side to side.***

I have participated in several of Grace's sessions over the past few months, and I would definitely recommend her work. **I always come away feeling better and lighter and happier... like I have released some major traumatic energy.** These are deep and sometimes painful topics, but Grace helps us to traverse them with care and laughter! **My favorite so far was her Power and Pleasure series. It was such a deep release of issues for me that I cried for a half an hour after.** I have felt a real difference since, and I am very grateful. **I have even seen a reduction in hot flashes,** which as we ladies know is huge! I look forward to continuing working with her.

### **More Joy, Better Health, Completely Different Person Now**

Grace Hom is the most genuine, caring, heartfelt, humorous person I have met to date; and I feel that is a winning combo for her extraordinary gift as a Healer and facilitator. Grace is as real as it gets. I have had the pleasure and opportunity to

participate in Her Energy Dentistry, Bagua, Spinal Energetics packages, Personal sessions and more and I come away always feeling changed, physically, mentally, emotionally, and spiritually. **I am a completely different person now, than before working with Grace**, when I was struggling physically, mentally and emotionally, I was attracting friendships in my life that were very painful and I was very Pissed off and my life now is peaceful, **I experience more Joy, much better health after struggling with Lyme for over two decades, my teeth feel so much better**. I could go on and on, Grace is that amazing! **The expansion that keeps coming through Grace, by her new ability to do Light Language and Gazing, has taught me what is possible when you simply allow**, and I believe everyone in her group walks away feeling empowered and supported by Graces loving care. You know she has your back and genuinely seeks to bring everyone into their own expression of Divinity. I guess to put in a nutshell Grace does "God's" work and you need only participate in one of her programs and you'll automatically get what I mean.

### **Work with the Interstitium Was Exceptionally Effective**

My physical challenges are severe cardiomyopathy, Type II diabetes and asthma. I am also extremely empathic - to a debilitating degree - where I experience not only the

emotional energy of others, but also their physical vulnerabilities.

On a scale of 1-10 before session: 10 for empathy and related symptoms, 5 Type II, 5 Heart condition, 2 Asthma.

**After the session: 3-4 Debilitating Empathy, 2 Type II, 2 Heart condition, 0 Asthma**

This session for the Interstitium was extremely powerful and effective for me. Knowing the body is largely made up of fluids, and a large portion of that is lymphatic, **this work with the interstitium was exceptionally effective at affecting changes.** Being a heart patient that plays with the odds of CHF all the time, managing fluids and fluid retention have been a large part of my program - moving interstitial fluids is the aim of diuretics. I felt it all being moved around as cleared. I have just come through a long period of convalescence, so I know I had a lot of lymph buildup.

**My activity after the session has increased immensely,** and everything seems to be moving again like sap in a tree. **Also, the amount of emotional energy that has shifted since the session has been profound for me. Fluids hold emotional energy and imprints and doing work with this was almost indescribable.** I have felt the largest shift to be emotional. I had been having a particularly rough time with empathy specifically with one person in our family who is not well. This took place daily. ***All of a sudden that has shifted to such a huge degree that I have been able to sleep, get up and have a productive day without resting and drive***

***for errands without concerns if not knowing when the next bout of debilitating empathy was going to hit.*** This has brought me a lot of joy. I sense that what we did shifted the imprints in the existing fluids and cleared a lot of the resonance I had with this individual - enough so that I have much more autonomy and sovereignty, and now appear to be more resilient to psychic attacks. I am so very grateful for Grace's brilliant guidance and work!

***“focus on mesentery will helped me to heal my large endometriosis inside my belly”***

I was seeking healing for: emotional and physical healing - endometriosis, lyme disease, brain fog, gut problem, liver, immune system, kidneys, heart, anemia, short and light sleep etc. long term anger, anxiety, sadness, find boundaries/my space, relationship mother - mother , relationship child - mother, feeling safe in dealing with people.

Before the session, the issues were a 10 out of 10.

**After the session, the same issues were at a 3 out 10.**

During the session I felt tension around my spine, in my whole belly, heavy legs (lymph).

Afterwards, I feel much calmer. ***I feel more aware of myself***, of my needs. ***The focus on mesentery will help me to heal my large endometriosis inside my belly***. Feel lighter in my belly, less tension (PMS).

This was my second session with Grace. I am so amazed. Her healing is so gentle, but deep and focused. I love her sense of humor which helps me to go deeper in the healing. I am crying and laughing at one moment. I also appreciate the focus on energetically Rolfing the fascia of my entire body, which is also my interest

### **Knee Pain Reduced, Fears Reduced to a 1.**

I was dealing with knee soreness, digestive issues and lethargy.

During the session with Grace I feel lots of tingles, mostly in my head, but occasionally down my spine. I feel energy moving, causing me to yawn and sometimes get sleepy. I also feel some emotions come up as something is triggered.

**After the session, my knee pain reduced.** Often, I perceive more brightness. **Emotional issues I've been struggling with like fear are reduced to 1.**

Grace is really talented at finding the right question or key to get to the core of something. She always brings up and tackles an issue in a way I never thought of and I am great at asking the right question or finding the right word myself, so I value her abilities.

Grace reads up on new research and fits that knowledge into her sessions to uncover hidden programs and traumas. Like adding a neurotransmitter or hormone she knows we often are lacking in our systems.

Grace is such a kind, joyous, and generous person. She makes me laugh more than anyone I've had a group session with. I look forward to hearing her calming voice.

**Anger Dissipated, Back Pain Improved, Life Improve Greatly**

I took the spinal energetics classes and back pain went from varying 7 and 9 to about a 4 or 5.

Before the inflammation webinar, I was feeling a lot of resentment and anger with my sister, **I felt the anger dissipate and after the webinar it was completely gone and has not returned.** Now I feel peaceful and loving toward her. ***During every webinar, I feel many energetic releases and always feel lighter.***

I am so grateful that I have been able to experience Grace Hom's energetic work. She is a beautiful soul that is super generous with her gifts. I love her webinars. They are always full of information, wonderful energy and surprises. Grace always addresses everyone's concerns and goes above and beyond to assist in releasing energetic blockages

and helping with emotional, mental and physical issues.  
**After taking Grace's Spinal energetics package, the chronic back pain I had been experiencing went from between a 7 and 9 to about a 4 or 5. This has improved my life greatly and I would highly recommend taking one or more of Grace's packages.**

### **Had Energy after Three Weeks with Flu**

At the time of the live call on antioxidants, anti-inflammation and pain relief, I had the flu. During the session, I had lots of yawning and as well during the live session as the replay I laughed so much, it was such a funny conversation we had. Before the live session I was in my 3rd week of flu, **the morning after the live session I felt so much space around my chest and had more energy than the other 3 weeks combined.**

Grace, I love your integrity, your purity, your authenticity, your grace and your humor, you are a wonderful healer.

### **Was Able to Cry and then Feel More Joy**

I was dealing with unworthiness, inner child issues and ancestral trauma. During the session with Grace, I felt the movement of energy in my lower body more. **Was able to cry and not hold it back. Felt a release of emotions.** Able to heal myself from her group and sessions! Now I feel lighter and more joyous.

Grace is a great facilitator. I have taken many of her sessions and packages. She held space for many of my issues in sessions and worked on problems from in-utero development, the unconscious, inner child work and ancestral traumas. Beautiful light language and gazing sessions. She has held space in so many ways to assist me in my personal growth along with many others. So much gratitude and love for her and her work.

### Shifts Occurring in Real-Time

I've been privileged to have been the beneficiary of Grace's amazing skills for several years now, both in packages and in several one on one sessions. She is very powerful and ***often I can actually feel shifts occurring real-time in my energy***. She is the real deal, and she continues to evolve and become more powerful as time goes on. More than that, she has experienced many of the things that I have with health, life issues and emotions, and she is able to bring that insight and experience with her as an additional component of understanding and ability to focus her healing where it's really needed. ***She recently did a session for facia, connective tissue, the interstitial space and the mesentery. I've known for many years now that these connective tissues are a huge component in my own healing journey, but not many are addressing this specifically.*** Therefore, I am especially excited for a package that delves into these issues. Thank you, Grace!
